Art Unit: 1755

1. This Office action is in response to the after final amendment and executed rule 132 declaration filed 6/3/05 and refers to the Office action of 3/9/05. The prior art rejections of the 3/9/05 Office action have been overcome by a showing of unexpected results in the executed declaration of 6/3/05 in combination with the arguments presented in the After Final Amendment of the same date. Accordingly, the nonelected claims 8, 20, 38 and 39 have been rejoined.

However, c.f. below for new grounds of rejection.

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 1-8, 10-18, 20, 21, 23-25 and 27-39 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-9 and 13-18 of copending Application No. 10/893754. Although the conflicting claims are not identical, they are not patentably distinct from each other because the limitations of the two groups of claims are coextensive when the dependent claims are considered.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

4. Claims 8 and 38 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps.

Art Unit: 1755

See MPEP § 2172.01. The omitted steps are: any contacting between the catalysts and the olefin monomers that go toward making the finished polymer.
